ALIEN HUNTERS, BOOK 1 BY DANIEL ARENSON PDF

The skelkrins. Predators from deep space. Creatures of claws, fangs, and unending malice. They swarm across the galaxy, slaying all in their path. Planets burn in their wake. And now they're heading to Earth.

Raphael "Riff" Starfire commands the Alien Hunters, a group of scruffy mercenaries. Galactic pest controllers, they mostly handle small critters - aliens that clog up your engine pipes, gnaw on your hull, or burrow through your silos.

Riff and his crew have never faced anything like the skelkrins before. As these cosmic killers invade our solar system, will Riff be the one hunting aliens...or will aliens hunt him?

Alien Hunters - a space opera adventure for fans of Star Wars, Firefly, and Guardians of the Galaxy.

Another exciting sci-fi thriller!

By Barb

Really enjoyed this sci-fi thriller. I love how Daniel develops the characters as they face adversity. While this is the first in a series, the ending did not leave me frustrated that I have to wait for the next book. I am looking forward to reading the next in the series when it comes out, but wasn't left hanging. He delves in to the characters and the story line quickly and caught my interest so that I wanted to see what would happen next and how the characters would handle their challenges and personal demons (and a "real" one, too...you'll understand if you read the book) and grow to be better. It's the classic good vs. evil, and while the individual "good" guys are far from perfect, I found myself cheering for them and hoping they'd succeed. Daniel has once again written a book that I can easily see myself reading again, one that leaves me wanting more, but not frustrated that I have to wait.

Good fun read, over cute at times but a easy, short, entertaining read.

By Mac

This book was a good quick read. The plot is basically a handful of misfits, some humans, others various creatures that find themselves unwillingly in a common battle for survival on an outdated spaceship. Due to monetary needs they are forced to become Alien Hunters to get enough credits to purchase fuel, provisions etc. The characters are a bit over done but it is all in good fun though It does try to be over cute and could have left the Romey Demon character out because it was just pure childishness, nonsense that added zero to

the story. I wondered if the author was trying to reach out to 5 year olds and parts of the book. That is how low grade the writing gets at times. But I knew the book wasn't long so I treked on and did enjoy the book overall. This book was offered for free as many first novels are from unknown authors who want you to buy the next book. Also this book is a complete stand alone story, which I appreciated, nothing worst than any book that isn't.

A rollicking good ride

By Linda Barnett

I was lucky enough to pick this book up for free and what a fun read it was! One part Star Wars, a dash of Wizard of Oz, a large dollop of Hitchhiker, a pinch of Fifth Element, just a taste of Star Trek, all mixed well with a brilliant imagination and you have one whale of a good space adventure! I'm looking forward to their continuing escapades as the series rolls on.
