You could start to like additionally reading up until completion of the book *Comparative Education Research: Approaches And Methods (CERC Studies In Comparative Education) From Brand: Springer*.

From the Inside Flap

Chapters compare places, systems, times, cultures, values, policies, and curricula, and focus on intra-national as well as cross-national comparisons.

From the Back Cover

Approaches and methods in comparative education research are of obvious importance, but do not always receive adequate attention. This book contributes new insights within the longstanding traditions of the field.

A particular feature is the focus on different units of analysis. Individual chapters compare places, systems, times, cultures, values, policies, curricula and other units. These chapters are contextualised within broader analytical frameworks which identify the purposes and strengths of the field. The book includes a focus on intra-national as well as cross-national comparisons, and highlights the value of approaching themes from different angles. The book will be of great value not only to producers of comparative education research but also to consumers who wish to understand more thoroughly the parameters and value of the field.

Excellent

By William Allen

A comprehensive coverage of the discipline with particular references to research in teh different areas of the field. Each chapter is of a very high quality but especially good in an edited book there are clearly made links between chapters. i would thoroughly recommend it.
