Better than the Book

By D. Austin

This study guide is better than the book for explaining accounting concepts. The quizzes are very helpful and facilitate understanding by the way the answers are explained. The book this guide accompanies is very good for multiple examples and a very robust selection of practice assignments, but the study guide helped me understand far better.

Good class

By Isaac

I'm a college student and I had to buy the book because I was lost in the class, the book teaches you step by step for the different cases that the teacher discussed in class.

Helpful

By Ann Tisdel

I was looking for a workbook to help me with my accounting class and this book helps. After I have read the chapter I look in the student workbook and gave me a better and short explanation of the chapters If this was to have a cd or anything else with it I didnt need it. Thanks.
