About the Author

Edward B. Fiske is the founder and editor of the Fiske Guide to Colleges. A former Education Editor of the New York Times, Fiske is known around the world for his award-winning writing on topics ranging from trends in American higher education to school reform in Southeast Asia, New Zealand and South Africa.

The guide was established in 1982 when, covering higher education for the Times, Fiske sensed the need for a publication that would help students and parents navigate the increasingly complex college admissions scene. The guide, an annual publication, immediately became a standard part of college admissions literature and it is now the country's best-selling college guide.

Fiske has teamed up with his wife, Helen F. Ladd, a professor at Duke University, on several major international research projects regarding the development of education in various countries. Together, they are co-editors of the Handbook of Research in Education Finance and Policy, the official handbook of the American Education Finance Association. Fiske's journalistic travels have taken him to more than 60 countries on behalf of the U.S. Agency for International Development, UNESCO and the Asia Society.

Born in Philadelphia, Fiske graduated from Wesleyan University summa cum laude, and received master's degrees in theology from Princeton Theological Seminary and in political science from Columbia University. He is a regular contributor to the International Herald-Tribune. In addition to the New York Times, his articles and book reviews have appeared in Atlantic Monthly, Chronicle of Higher Education, Los Angeles Times, and other national publications.

A resident of Durham, North Carolina, Fiske serves on a number of boards of non-profit organizations working for access to college and international understanding. He is also a founding member of the board of the Central Park School for Children, a charter school in Durham.

Facts plus informed opinion

By Rico

I have four college guides (Fiske, Tanabe's America's Best Colleges, Princeton Review's Best 380, and the Insider's Guide), plus I subscribe to the US News college rankings. Each resource has its strengths, but the Fiske Guide to Colleges is the one I reach for first when I want to look up a school. Instead of just putting statistics in narrative form, or quoting students who have little basis for comparison, Fiske places each college in context and delineates the school's distinguishing features. For each entry, Fiske gives a list of "overlaps," competing colleges that share the same applicants, which is helpful information during the discovery phase of a college search. Fiske opens each college's entry with a summary paragraph that seeks to distill the unique essence of the college, often by differentiating it from its peer institutions. There are many places where you can get the bare facts about a college, but Fiske gives you an informed opinion that is much more valuable.

By A TRUE COFFE LOVER

Look at the preview before buying. It really only has a small number of schools in here. The write ups are great, so if you are looking for a selective college (and I use that term loosely) or the biggest public college in each state this book is for you. I was shocked they had 1 of the University of Wisconsin colleges, 2 of the Michigan public universities. The same thing can be said about many other states. It seems to be geared more towards private schools. A few people have read how they "supposedly" chose their schools, but left scratching their heads too.
