Most people in their lives have lost a lover that they truly believe was the one, and there is no forgetting someone like that. With this book you don't have to lose that person forever anymore because the author has

At the same time I felt frustrated because the book is not telling me what I want to hear, and that is running back on my knees. But instead the author offers much better guided solutions that are proven to work. So if you know how to follow instructions and not let your emotions get the better of you, then this winning formula is for you. You are going to have to throw out a lot of what you think and replace it with this.
