Excellent!

By B. Cadman

I can't imagine why anyone would rate this book a "ripoff." Granted that, as the editor noted in his Introduction in the Sample download, it is certainly challenging to the Kindle Fire's processor and thus can be quite slow at least at first use, I haven't had any problems with it. I use it on a Kindle Fire HD 8.9 with 64G, and perhaps the extra memory helps it to run more efficiently.

As for the content, it is wonderful to have a Byzantine text for Kindle. And I particularly like to link back and forth between the plain Greek text and the parallel versions. And the critical notations in the Greek are most helpful as well. It might have been nice to have had the NKJV included in the parallel versions since it is the only major contemporary translation based on the Majority Text. Of course that would have raised the price considerably.

I am grateful for all the work which went into producing this book and would highly recommend it to anyone who wants to see what I believe is far and away the most reliable Greek New Testament base.

Book is a ripoff

By Angry Monk.

This book is a total ripoff! I bought and loaded it on my kindle fire and it wouldn't open up. It just froze. Complete waste of two dollars. Don't throw your money away. Getting a refund is impossible. Junk, carp, RIPOFF!!!
