Good book but here's the rub..

By Dredoak

A bit too expensive for me so I returned it. The color plates are a bit too dated for me. I'm sure the information is invaluable but not at this price point, for me.

Best Book Ever

By Jessica g

If I was in a fire and could only save one art book this would be it. His theory on color changed the way I understood it. I like the way he writes, it's easy to understand. He explained complex stuff very simply. If you're trying to understand color mixing this is the book.

This book is so easy to read. Its as if Gruppe was sitting beside you whilst you paint.

His words are wise, unpretentious and encouraging. This is the best art instruction book I have bought out of many.
