Quick Delight

By Amazon Customer

A fun and delicious read, perfect for the short train trip or filling one of those little bits of spare time. Zack and Alice sizzle from page one and make you want to turn the page quickly to know what happens. You won't regret buying or reading.

Quick Read

By Cheryl Wright

This was a very quick read - about half an hour at most. I was looking for something short to read and this fitted perfectly.

The story started with the romance moving at a very quick pace, but then slowed quite a bit. Because of the length, the author didn't have the space for character development. I would have preferred the story to be a little longer so we could get to know the characters better.

I felt Zac was conflicted between his motivations and his actions. One thing he did in particular, didn't align with his thoughts, or at least the way I thought he would behave. (Can't say what it is, otherwise I'll give the plot and storyline away.)

It's a good quick read, but if you want fully developed characters, you won't get it. I would have liked to see these characters in a full-length novel, rather than a very short story like this one.
