Certainly, after downloading Operation Firebrand--Origin By Jeff Gerke, you might not print it.

OPERATION FIREBRAND--ORIGIN BY JEFF GERKE PDF

The world on fire with violence against innocents.

In places where the U.S. military cannot become embroiled.

If only there was a team that could go in anyway.

Now there is.

Navy SEAL Jason Kromer is the tip of the U.S. military's spear . . . until a sniper/assassination mission goes pear-shaped and his friend is severely wounded—thanks to Jason's hesitation.

Guilt consumes Jason and he quits the military, thinking that his days of being a warrior are gone.

But along comes a mysterious billionaire who is putting together a very special covert ops team. Its mission: to go into forbidden combat zones on high-tech missions of mercy. And the billionaire wants Jason to lead that team.

Two problems with that: 1) The team is honor-bound to use only non-lethal weapons (“Are you insane?”) and 2) everyone on the team is a Christian.

Trouble is, Jason and God haven't been on speaking terms since the accident.

To make it worse, not everyone on the team is even former military. Oh, there's an ex-Green Beret and a former Marine Force Recon man, but there are women on the team—albeit very hot women—and a freaking teenager. This has instant death written all over it.

Then again, maybe instant death is just what Jason deserves.

So Jason has to whip this team together and get to Kazakhstan, where a civil war has put a group of orphans in danger. Fine. Great.

It's the perfect way to get himself killed.

This is book 1 in the Operation Firebrand series.

** Previously published in 2002 under the title Operation: Firebrand. **

In the tradition of the best adventure pulp novels.

- Operation Firebrand—Origin
- Operation Firebrand—Crusade
- Operation Firebrand—Deliverance

Excerpt from Operation Firebrand—Origin

Rubble covered the ground as if a giant toddler had come in and knocked everything over. Bricks, upended furniture, burned rafters, discarded weapons, and plain old trash littered the ground exactly as they had in other war-torn cities. Where buildings still stood, most were on the brink of collapse. Some were missing corners, some were blackened by smoke, and some were gone completely. Jason could see stars through the wall of one of the dingy white apartment buildings that lined the street.

Jason and Trieu reached the front of the orphanage. It had burned almost to the ground. A brick husk remained to mark the general layout of the building. The walls had five feet of solid concrete at the bottom. The first ten rows of pink bricks remained in places.

Jason signaled for Trieu to take cover and watch behind him while he went inside the ruins. She crouched against the wall. Jason stepped through the entryway.

It didn't look like anyone could've survived this fire if they'd been here when it happened. Everything that had been on the upper story was represented in the pile of dark rubble before him. The infrared imagers in his goggles gave him a green monochrome view of the destruction. He saw furniture amid the heap of ash and plaster: overturned desks, chunks of couch stuffing, a blackened refrigerator, and dozens of metal bed frames.

Jason's stomach constricted. In his mind's eye he saw dozens of orphan girls having pillow fights on these beds. The frames were so tiny. Suddenly this wasn't a cut-and-dried FedEx op anymore: Now it was a rescue mission.

It was only that, before, the kids were just packages to be delivered. Now they were little girls who slept in little steel beds. It made a difference somehow.

would've given 5, but...

By Amazon Customer

Would have given it 5 stars... if it wasn't for the unnecessary over-sexual stuff. Yeah, go ahead & roll your eyes, but as a christian man who wants to honor God (& my wife) & obey His word, I cringed at this book. I was hoping to both be exciting, have some good spiritual 'meat', and not drag my thoughts into the gutter. This book had so much... SO much going for it, an believable, exciting storyline, some encouraging Biblical 'meat' to truly grow on... but then Rachel has to be over-described in her 'sensuality', knock-out body. Why? Why not just say she was 'drop-dead gorgeous ' instead of dragging a descriptive-driven man's mind (that's ALL of us, guys!) into a place it shouldn't go (except with his own wife)? No excuse... absolutely no excuse. And don't give me that "well you just have a dirty mind" flack. EVERY male is God-wired to respond to the female body (Yes, even in writing if It's descriptive enough!) in a desirous way (again, to be kept solely for his wife)! Yes it was great showing Jason avoiding his eyes at times, but why not just say "... and he avoided his eyes from possible trouble " and leave it at that?! As good as the book otherwise was, I won't be reading the author's work again or recommending him.

You'll want to read this one!

By K

This was an excellent book! I was actually thinking it would be a B-rated book at best, but it was a surprisingly fun read. His characters were well-developed, his dialogue was incredibly witty, and he threw in quite a few plot twists as well. The premise was refreshing. All in all, he's hit my 'great authors' list.

If you liked Ronie Kendig's series about a black ops team going in to save the helpless, you'll love Gerke's series. He has all the plots, teamwork elements, and dialogue that made her books fun to read without adding the cringe-worthy graphic scenes she did. I can't wait to read the others in his series...heading to checkout now.

Clean or not?

By Dark Arrow The Avenger

I loved the Missions idea, secret covert missionaries, just what I love, with a taste of humor. Yeah, I know I'm female, but I get that guys love looking at women. But everytime Rachel popped up, "She had a knockout body" is what Jason thinks. And then, he seems to like Trieu at one point. I'm not sure about this one. I love romance, but not sure about this one.
