Knowing what psychopath is

By Mark D.

I don't know anything about psychopaths. This is my first time to read a book about the topic psychopath. I read this book and it helped me learn what psychopath is and what the different personality disorders of being a psychopath are. This book shows the 10 warning signs to assess if someone may have a psychopath personality. This book provided me with knowledge on how to deal with people who have this disorder. These guides and tips are well explained and are very detailed. Awesome book!

Insightful and intriguing

By CapsOn

A disturbing read, that is an eye opener to the behaviour of people with this disorder. We have all heard of instances of terrible things happening, and there are plenty of movies and books that portray the twisted minds of these poor souls, but this book gave sound advice on what to look for if you have any doubts about a partner, now or in the future.

Certainly there is a lot to think about and James seems to have quite a collection of books in this genre available which is great if you want to further expand your knowledge.

Get this book before you run into somebody like the people described inside!

By Simon Richards

I've had a stalker issue earlier in my life. I wish I had this book back then when I was freshly introduced with this individual, so I could notice all the signs and red flags that would hint me to get the f*** away from this person before things go too deep and involved. This should be something you consult on each and every time you go on a date. Once before the date, once after. If you are living with somebody who's like this, this is a flashlight saying "you need to move out". The book contains overlook on profiles for these people, how to spot them, exit strategies if you are involved with any, and how to keep yourself away from them in case you run into some. Great addition that may just improve, if not - save, your life one day.
