Great book and came in great condition

By Evelin

I was assigned the book for my group dynamics class. I didn't wanna pay a lot for the book so this was a great deal for me. I am college student and cheaper books are great books. This is the 10th edition. My professor said the newer one and the older ones are the same. Don't waste your money on a more expensive book. This was a great buy !

Really well-worded book for learning

By Matthew DiMasi

I was assigned this book for class and I am really happy, first of all because I save a lot of money getting it (marked down from 85 I think) and it has ideas, principles, and strategies that can be applied in a variety of situations.
