SERIAL HOTTIE BY KELLY ORAM PDF

"Does that mean you don't have a boyfriend?"

I narrowed my eyes at him but he still figured out the truth. He gazed at me for a moment then asked, "Have you ever had a boyfriend?"

I blushed again. Even deeper than before. My lack of response answered the question for me. I think this was the reaction Seth was hoping for since he leaned in really close. I instinctively tried to back away from him but seeing as how I was lying in bed, and he was blocking my escape, the only thing I could do was sink down into my pillow.

"I wonder..." he said when I could sink no lower. I was flat on my back again, ignoring the discomfort the pressure was causing my stitches. He leaned completely over me, trapping me between his hands and hovering at arms length directly above me. His eyes were still quizzical, and yet they burned, almost wild, as he stared down at me.

When he spoke again, it was a whisper. A velvety-smooth, dangerous whisper. "Have you ever been kissed, Ellie?"

I sucked in a deep breath and then held it while the blood drained from my face. I was frozen, completely terrified by this beautiful boy and what it looked like he was about to do.

When Seth leaned in and brought one of his hands to my face, I flinched so violently it startled him. Instead of kissing me—which I'm pretty sure he wanted to do—he sat back up and whispered, "Okay. Relax." He brushed the hair away from my eyes, and then ran the backs of his fingers down the length of my cheek. "When you're ready." It sounded like a promise.

...

Ellie's Sweet 16 is a summer of firsts.

First car.

First kiss.

First boyfriend.

First serial-killing stalker...?

Hockey-obsessed tomboy Eleanor Westley has never been the object of a guy's affection before. So when the hottest boy she's ever seen moves in across the street and starts treating her like she's the center of his universe, naturally she's going to be a little skeptical. But everything starts to make sense when girls who look just like Ellie start dying all around the city. Obviously the new guy is the killer, and of course he only likes her because he wants to slice her into tiny pieces. Right?

The more Ellie gets to know Seth the more she's convinced he's a psychopathic killer. Problem is, he's the sweetest psychopathic killer she's ever met. Not to mention he's brutally hot. No matter how hard she tries, she can't help but fall for him.

From the best selling young adult author of *The Avery Shaw Experiment* and *V is for Virgin*, comes a lovable, quirky, and wildly funny coming of age contemporary romance about a girl, her strange but hot neighbor, and the crazy summer that changed both of their lives forever.

Will Ellie find true love?

Or will her summer of firsts turn out to be a summer of lasts?

Cute book

By Kindle Customer

This was a fun book to read it had a good plot which is unusual for books like these. A bit childish but that was the appeal. I do felt the boom seem to have unnecessary parts in it though.

Kind of a creepy love story

By Reader33

***May contain slight spoilers

I can only give this book 3 stars, because while I couldn't put it down (I just had to know who the serial killer would end up being), I was really creeped out by the love story. Seth was kind of on the abusive side. I don't think there are any parents out there who would want their daughter to date someone who completely flies off the handle anytime another boy so much as looks at her, telling her that he hates all her friends and "kidnapping" her just to prove a point. Fortunately our heroine doesn't just sit by and take it from him, but I still felt like she could have done more to put him in his place...like break up with him.

Other than that I thought the book was really well written. I liked how Ellie and her sister develop a loving relationship, and how Ellie learns a lot about herself over the course of the book. The story felt really intense, and I loved how there was the constant question of "did Seth do it?" I am a fan of this author and would probably read anything else she chose to publish.

This book was terrible. TERRIBLE and preposterous.

By Eeva

MAJOR SPOILERS - READ WITH CAUTION!

This book was terrible. TERRIBLE. I mean, I admit - Kelly Oram is a very skilled writer. I loved "Cinder & Ella" - this book made me cry and it wasn't pretty. But "Serial Hottie". OMG, this book is just preposterous. Let me elaborate.

1. Seth. Seriously? Stalker much? Creepy much? Psycho much? This book would be so much more

interesting if he was the killer. But he obviously couldn't have. I don't get this hype for possessive, moody, creepy, stalkerish dudes with obvious anger management issues. I blame Twilight. Girl, if a guy breaks into your room just to leave you a "sweet and romantic" message, spends some amount of time there while you're having dinner with your parents downstairs it is not right. If he punches a wall because he saw you kissing another guy, it's of course better than punching you, but it is still not right. If he wants to kill every male that comes near you, it is not right and he's in serious need of some professional help. If he declares that you're his girlfriend and he's not taking no for an answer and you're thrilled about that, there's something wrong with both you and him. If he tells you things like "oh you're so sweet and innocent" or "I'll teach you more when you're ready" there is something wrong and creepy about that. If he pins you to the floor with your hands behind your back just to prove a point it is NOT right. And last but not least, if a guy picks you up against your will, drags you to his room and keeps you there so he can talk to you, it's definitely not ok!

If Seth wasn't that hot it would be totally a "Criminal Minds" episode.

2. Ellie. Oh Ellie. If you suspect that your love interest is a psycho-killer you dump him and you don't make out with him. Simple as that.

The only thing I liked about her was her relationship with the J's. Besides that she also has serious anger management issues, she acts like she's 12, she lets her loins cloud her judgement, and she's definitely too much thrilled about dating possessive creep just because he looks hot during his shirtless workouts. Girl, you need to sort out your priorities.

3. The Parents. Really? I mean, really? If there's a psycho killer just looking for victims that look exactly like your daughter, you don't leave her alone at the house (just with a sister barely two years older) and go away for two weeks. You just don't. Parenting 101, guys!

The only person that has some common sense is Angela. Ok, she was portrayed like a total airhead at the beginning, but after some time she was the only one who's seen Seth for a creeper he was.

I also liked how the relationship between the sisters evolved.

The Seth/Ellie insta-love bothered me much more than it should. Seth moving into this particular house just because he saw Ellie eating ice-cream and drinking soda? Dude, are you kidding me?

If you're considering reading this book I strongly advise you to think twice.
