0 of 0 people found the following review helpful.

Save the planet, don't buy this waste of a book.

By Drew L.

This book could easily be compressed to a fifth of its size. I really was just hoping for some flashcard type of material. Obviously it isn't going to be actual test questions, but something remotely relevant would be nice.

This book was:

1. Littered with redundancies. I didn't even go through half the book but by the time I gave up on it, I counted one question repeated six times. Plenty of others at least three or four times.
2. Full of incomplete/inaccurate questions. Questions that had absolutely no context and where the answer would depend on things the question didn't even mention.
3. Chock full of errors and misprints. Many of the questions looked like they were braindumps from ESL test-takers.
4. Full of irrelevant material. This is a SharePoint exam, not an A+ exam. Don't waste space asking me about the OSI model.
