## **THE PURITANS, A SOURCEBOOK OF THEIR WRITINGS (2 VOLUME SET) FROM HARPER TORCHBOOKS PDF**

This book is a well written, researched reference for the reader who wishes to study the Puritans' background, their religious movement and way of life. It is a fine sourcebook of information on these settlers through their own writings.

A More Objective Review

By Robert Richard

Considering the only other review for this book currently available, I felt compelled to write a review that is actually about the book, not the subject of the book. A Harvard professor deserves at least that. Perry Miller's classic introduction to the New England Puritans remains an essential text for anyone seeking to understand the complexities of a much maligned and often misunderstood religious movement. An understanding of the New England Puritans is absolutely essential to an understanding of American History and American society. Miller does not espouse the doctrines of Puritanism; he provides a concise and helpful historical background and then guides the reader through some representative samples of their writing. This is not a book designed to convert someone to Puritanism. A sidenote: The Puritans referred to in this book have not existed for centuries, so I assure you no reviewer of this book actually left the Puritanism described in this book.

This is an unbeatable collection of original source material for ...

By Amazon Customer

This is an unbeatable collection of original source material for Puritan studies. It's available now only as a digital book, but for something of this heft, I prefer hard copies so I bought it used.

Good read.

By Mary E. Cooper

The Harper Torch Books of a generation ago have a few noteworthy titles, and this two volume set is one of them.
