Another Great Resource!

By ndwolf68

Bernard Kempinski has written another well researched book for modeling. His information is useful, his methods are follow able and can be emulated with just a small modicum of effort. He also injects enough related world and model building experience, to make this a must have for any modern era modeler.

As a professional mariner and Shoreside engineer, I can tell you this is a great resource for modelers, both armchair and practical.
