But below, just by search and also find *Why Men Rebel By Ted Robert Gurr*, you can get the lists of guides that you truly expect. In some cases, there are many publications that are showed. Those books certainly will certainly astonish you as this *Why Men Rebel By Ted Robert Gurr* compilation.

Review

Likely to last a long time. --James C. Davies in *Orbis*

I am delighted to see *Why Men Rebel* back in print. In addition to being an important theory about protest and rebellion it also serves well teachers who wish to illustrate theoretical levels of analysis and how theory can focus on one while engaging the context provided by others. Gurr's theory is sometimes over-simplified as a purely psychological theory. Yet it has a core focus on individual grievances within the context of societal norms and values as well as government capacity and repression. Few rational choice theories ground their analysis within social contexts, and few of the sociological or structural theories provide an account of the impact of individuals' beliefs or motives. *Why Men Rebel* provides not only an important theory of protest and rebellion, but remains today a model for developing a rigorous theory that engages the complexity and nuance that this topic surely requires. --Will H. Moore, Florida State University

The most important book that has been published on social violence in a good number of years. . . .a superb piece of work. --Lewis A. Coser in *The New York Times Book*

About the Author

Ted Robert Gurr is Distinguished University Professor, Emeritus, and Founding Director of the Minorities at Risk Project in the Center for International Development and Conflict Management at the University of Maryland.

Nowadays, technology actually sustains you tasks, this online book [Why Men Rebel By Ted Robert Gurr](#), is as well.

WHY MEN REBEL BY TED ROBERT GURR PDF

Why Men Rebel was first published in 1970 after a decade of political violence across the world. Forty years later, serious conflicts continue in Africa, Asia and the Middle East. Ted Robert Gurr reintroduces us to his landmark work, putting it in context with the research it influenced as well as world events. Why Men Rebel remains highly relevant to today's violent and unstable world with its holistic, people-based understanding of the causes of political protest and rebellion. With its close eye on the politics of group identity, this book provides new insight into contemporary security challenges.

Human Factor of Political Violence

By T.A.L. Dozer

In this influential writing, "Why Men Rebel" by Ted Robert Gurr covers the root causes of political violence,

whether it is riots, rebellions, coups, or insurgencies, Gurr develops what is known as the relative deprivation theory. In this theory, essentially an economic argument, political violence is attributed to a discrepancy between what men and women think they deserve and what they can actually get in society. The resulting frustration culminates in incidences of collective political violence by social groups.

This book is CURRENT

By Sojourner Truth

Too bad the Maryland governor and Baltimore cops have never read this book.
